GIULIO GRASSO

Grape-grower of the year

“**Giulio Grasso - founder of Ca' del Baio winery** - in an authentic grape-grower, a man who lives the rhythms of nature and countryside practically in symbiosis with his vineyards. Although his productions ranges from red white wines to red of the territory, it his nevertheless his Barbaresco wines from Pora, Asili and Vallegrande *crus* that most deeply represent him, and above all, his ties to his land. He is transmitting these values to his daughters Paola, Valentina and Federica, who work with him in to the winery.”
